
BIM-MEP^{AUS} Revit Template – December 2024 Updates List

The BIM-MEPAUS Revit Template has been improved with the following updates:

- HV (High Voltage) Conduit service added
- Fabrication service colour filters/view template added
- Duct Item Number tag added
- Added new Pipe System for Sub Floor Hydronic Heating SFHH
- Corrected High Pressure Weatherproof abbreviation HPW
- Reviewed and corrected all shading RGB values for Duct colours
- Adjusted all Pipe System names and updated prefixes:
 - MD=Mechanical Ductwork
 - MP=Mechanical Pipework
 - HP=Hydraulic pressure pipework
 - HD=Hydraulic drainage pipework
 - FP=Fire pipework
 - MG=Medical Gases
- Fixed order of Cable Tray colour filters in visibility graphics
- Removed transparency of Cable Trays and added a lighter shade colour
- Reviewed all Pipe system colours and added shading where required
- Additional size of 200 dia for Copper brazed pipes added
